ALWISE STUDIO INC.

EXPRESS FEES MANAGER 1.0.0

Express fees manager is a fee collecting and management application. The application was designed with the aim of helping small institution to collect and manage fees from members without struggling with organized data.

ALWISE STUDIO INC.

EXPRESS FEES MANAGER 1.0.0

CONFIG

This is the first most important aspect of the application. It serves as the laid down principle for all other components of this application to function properly. The activities to perform here include:

- i. **“Period”** This simply mean the section or season in which you are working this could be a term or semester if you are running school.
- ii. **“Level”** This is the available stages one can be ranked such as *class one* or *level 100* in terms of schools.
- iii. **“Year”** is automatically set to the current year in which you are working. Date and time mostly depend on your computer system time and date for storing data. Failure to ensure appropriate data and time, your data may indicate inappropriate date or time as well.
